Scholarships:

a) Does ENIDH have scholarships for international students?

No, it doesn't.

In Higher Education in Portugal, the granting of scholarships depends on the General Directorate of Higher Education (DGES) and the grant award conditions are defined in the legislation currently in force.

b) I have enrolled in ENIDH through the special contest of access and admission for international students. Can I apply for the DGES scholarship?

No, you can't.

According to the diploma that regulates the status of the international student (Decree-Law nº36 / 2014, of March 10, modified by Decree-Law nº62 / 2018, of August 6), international students exclusively benefit from indirect social action support.

This general rule excludes international students who are granted the status of student in emergency situations for humanitarian reasons, which may benefit from all the support provided in the scope of direct and indirect social action.

On the other hand, students entering higher education under this statute maintain the status of international student until the end of the course of study in which they originally enrolled or for which they have passed, unless in the meantime they acquire the nationality of a Member State of the European Union, and even if, during the course of the study cycle, they are granted the status of equality of rights and duties under an
